An aerial photograph of a coastal town, likely in Montenegro, showing a bay with several swimming pools and a small peninsula. The town is built on a hillside with many houses and trees. The water is a deep blue-green color. The sky is clear and blue.

We are pleased to offer for sale a contemporary private villa with swimming pool and garage, located in the coastal area of Utjeha, Montenegro.

The villa has a total internal area of 305 sq.m. and has been carefully designed in accordance with modern European construction standards, including current seismic resistance requirements applicable for coastal regions.

This elegant three-bedroom villa is perfectly suited for comfortable accommodation of up to six people and combines modern architecture with the relaxed Mediterranean lifestyle of the Adriatic coast.

The concept of the villa has been thoughtfully designed around the way people truly enjoy summer living.

The ground floor creates one continuous living experience between the interior space and the swimming pool area, becoming the natural centre of daily life — a place to relax, swim, entertain guests and enjoy long summer afternoons.

The first floor accommodates three spacious bedrooms, providing privacy and comfort for family members and guests.

At the top level, the villa offers a large rooftop terrace with panoramic sea views and a summer kitchen area — an exceptional place for evening gatherings, outdoor dining, barbecues and unforgettable sunsets over the Adriatic Sea.

The property combines modern European architecture, functionality and the unique atmosphere of Mediterranean coastal living.
